

'Bring in-build up' Milk Supply

Lactation is expected by Nature, after baby emerges. The “4th trimester” begins. As milk is blood. It needs to be made continually. If she lost blood birthing, even more so. Strong Blood energy gives Mum sanity, sleeping and a happy life. Good gut function (calm Mum plus ingredients) is needed – plentiful hydration, abundant protein and fat, with warm nourishing broths on hand. Mum needs support in all things - *The Golden Month* PLUS sleep and debriefing and loving PLUS moxa on the first 3 sets of points. She can't have too much rest, water and love.
