

Serrapeptase – a great complement to Ancient Minerals topical magnesium

The natural Chelation-Anti-Inflammatory Serrapeptase has had wide clinical use – spanning over twenty-five years throughout Europe and Asia and now in the west as a viable alternative to salicylates, ibuprofen and the more potent NSAIDs. Unlike these drugs, Serrapeptase is a naturally occurring, physiological agent with no inhibitory effects on prostaglandins and is devoid of gastrointestinal side effects. You can see studies and technical information at www.serrapeptase.info

Serrapeptase is a proteolytic enzyme isolated from the micro-organism Serratia E15. This enzyme is naturally processed commercially today through fermentation and was discovered in the silkworm intestine. Histological studies reveal powerful anti-inflammatory effects of this naturally occurring enzyme.

Serrapeptase **digests non-living tissue**, blood clots, cysts, and arterial plaque and inflammation in all forms. The late German physician, Dr. Hans Nieper, used Serrapeptase to treat arterial blockage in his coronary patients. Serrapeptase protects against stroke and is reportedly more effective and quicker than EDTA Chelation treatments in removing arterial plaque. He also reports that Serrapeptase dissolves blood clots and causes varicose veins to shrink or diminish and naturally reduces arthritic and other pain

The simple answer is Serrapeptase is the best anti-inflammatory enzyme available. It does NOT affect any drugs whatsoever except that it may make them unnecessary.

Results: Good results with the most health conditions including pain of any kind, inflammation, arthritis, lung and chest problems, eye problems, multiple sclerosis, ear nose and throat, trauma, cardiovascular problems. **A great complement to Ancient Minerals topical magnesium**

It could even be taken even if you had nothing wrong whatsoever (inflammation also being the cause of premature ageing).

Dosage: For 80,000iu

Treatment of Inflammation/Pain: up to 1-3 tablets three times per day on an empty stomach.

For new triple strength **250,000iu**, 1 capsule up to 3 times per day 1/2hr before meals

Children and Animals:

It can be safely used with children and animals. A recommended dose of 1-3 tablets per day for children. If they cannot swallow the tablets, then they can chew the tablet as it does not have any taste whatsoever (if you have selected capsules to tablets, they can be broken open and mixed with honey). In fact a sore throat can be cleared in about 30 minutes by chewing 1-2 tablets. Also you can treat children with mucus problems such as colds.

How long to take it: Although most symptoms will go within 1-2 weeks, it is recommended that you take Serrapeptase for 3-4 months and then stop to evaluate further need. Many people take Serrapeptase at a low dose, 1-2 per day, for health maintenance. Purchase at www.rejuvehealth.com.au 07 5476 5454
