

## Windows to Sky – Sylvia 2014 Rothenberg

This is why I traveled to Rothenberg  
Just for her.

Around the carotid - very fragile structure - marital arts – can kill.  
Wolves – always attack there.  
Element of earth and metal

Old Testament – Psalm – throat and soul (kefas)- Israeli woman next to me did  
not know it however . .  
WTS are in the way of 5 elements and treat as this.

Essential life support system thorough the 2 pipes/throats ..  
So –problems with ?? .. deep humming ..  
Also breathing and belly – sighing.

Throat - wonderful place in meditation (5<sup>th</sup> Chakra)  
16 petals of lotus – from throat.  
Has to be wide open.  
Wide open . .

Must get the point in the right place.  
Flow will mostly go down.  
Usually do WTS points - a long time – primer for using them . .  
Use when very good feeling for transformation

After getting to know patient – worst thing that can happen is a ‘hickey’.  
There are so many superficial blood vessels.

Alignment of the points – Banner of infinite cloud temple – old Taoist painting –  
The mountains on the top are the head.

- Connections to heavens.
- **GV 16** – base camp at Mt Everest.

Climbing there starts up to the Heavens . .  
12 level pagoda – the neck.  
Refines as it goes up.  
Wisdoms – hierarchical – stairway to heavens.

**CV 22** .

Some points for there are called satellites.  
And a small path to the heart.

Direct pathway from there to the heart
